

Highlights this year...

Blue Mountain Clinic hotline goes tech: ASKMAP delivers sexual health questions via text and web!

Blue Mountain Clinic launched ASKMAP, a text- and web-based hotline for teens' sexual health questions — providing reproductive/sexual health information and resources to a generation that's technologically connected — reaching teenagers on their turf.

Coming up...

Blue Mountain Clinic

610 N. California · Missoula, Montana 59802

(406) 721-1646

www.bluemountainclinic.org

Community-built, community-based health care
that begins with listening, provides information
and options, and respects individual choice

Our past...

Blue Mountain Clinic is an independent, nonprofit organization providing high-quality, patient-centered primary and reproductive health care. Founded in 1977 as a feminist health clinic to address the lack of access to abortion care in Montana, we expanded our services to include a comprehensive family practice care in 1991.

Our future...

Driven by our mission, vision and values...

access to safe, affordable reproductive and primary health care

advocacy for policies that improve reproductive justice and correct health disparities

accurate education on health, reproductive choices and sexuality

individual empowerment to actively participate in their health care

Our present...

Today, with more than 8,000 patient visits a year, we strive to make our services affordable and accessible. Clinicians at Blue Mountain Clinic include a board-certified family physician, two physician assistants and two licensed mental health counselors.

We are proud to have been named “Best Health Clinic” and “Best Doctor” three years in a row in the *Missoula Independent’s* reader poll “Best of Missoula” awards.

5 year goals...

Increase access to and quality of care.

Expand income from service delivery and donor support for prevention funding, and through prudent financial management.

Recruit and retain the best and the brightest staff to the clinic through high-quality hiring practices and benefits package, and training and development opportunities.

Focusing on ...

Telling our story to help grow our patient base

Claiming our place as a critical part of the delivery of the best model of quality health care for our community

Using our voice to advocate for choice, comprehensive sex education and to forge health care policy that serves all

Reaching out across the region with resources and referrals
